Subject: RE: Niagara Falls Boulevard revised notes from 05-19-2016 Meeting

For post-ex soil sampling, based on lab turn-around-time of over 30 days (Ra-226 21-days ingrowth), do we have a contingency method of obtaining screening data for post ex soil samples?

If we have a method to screen soil on-site, my suggestion is that if we compare the lab results for the first set of post-ex soil samples with their screening data and we are able to establish a statistical correlation between both data, it may be an option to speed up backfilling areas already excavated so that we do not keep open excavations for prolonged periods while waiting for confirmatory data.

Please let me know your thoughts.

Thanks,

Ben Nwosu

Senior Project Scientist / Group Leader

Weston Solutions, Inc.

Subject: RE: Niagara Falls Boulevard revised notes from 05-19-2016 Meeting

Hi:

Does anyone have anything to add from Friday's meeting? I received notes from Peter and Lyndsey. If not, I will incorporate into revised document to capture all of our input for the upcoming mobilization.

Thanks

From: Daly, Eric
